PLACEMENTS

OUR APPROACH TO PLACEMENTS IS DIFFERENT

At TalentFarm.ai, we go beyond fancy resumes and mock interviews. We help you build rich profile with verifiable credentials and make it visible to top recruiters.

WHAT SETS YOU APART?

Curated Live Profile

Create your data-driven talent profile that includes:

▶▶ Industry Challenges Solved

▶▶ Project Codebase & Architecture

▶▶ Mentor Feedback & Scores

▶▶ Skill Badges & Certifications

▶▶ Behavioral Insights & Collaboration Index

▶ VIEW SAMPLE PROFILE

Personalized Assessment Report

A personalised report signed by an industry mentor from top companies adds immense credibility to your profile, making you stand-out amongst the potential candidates.

Industry-Grade Product Experience

You will complete end-to-end implementation of real business case study-something most candidates at this stage of their career don't have.

TESTIMONIALS

TalentFarm.ai has recieved tremendous support from Industry veterans & leaders from the AI ecosystem.

The use of AI to build a curated profile, not limited to regular assessments, is very interesting & great aid to corporates & startups in recruiting the right fitment.

AVNEESH BHATNAGAR
Director, Product Management, RealPage Inc.

This truly democratises the access to Talent, companies can access a larger talent pool literally on demand.

RAHUL PAITH
CEO, MATH

There have been a lot of piece-meal solutions in the edtech space. TalentFarm follows a holistic approach and the focus is on problem solving & build rather than theoretical approach.

RAMA IYER
Head Innovation, GMR Group

Jayesh Ranjan
Principal Secretary, Information Technology, Government of Telangana

The Government of Telangana is very keen on leveraging technologies like AI/ML for good governance. As a government, we have huge data sets and we are happy to share them & help the participants build disruptive solutions for the common benefit of citizens.
